selected experience

UX Designer / Amazon Web Services (AWS)

Jan 2023 – June 2023 / East Palo Alto, CA

- ❖ Created a design library for console components to accelerate design efficiency and foster synergy with engineering partners
- ❖ Provided dedicated UX support to existing Direct Connect projects to deliver wireframes that adhere to design best practices
- ❖ Forged strategic partnerships with designers from three teams to streamline UX workflows on related projects, fostering collaboration to deliver cohesive and impactful designs
- ❖ Launched a UX research initiative to illustrate the DevOps workflow and refine the MVP of a planned product, driving user-centered design decisions to build user satisfaction

UX Design Intern / Amazon Web Services (AWS)

May 2022 - Aug 2022 / East Palo Alto, CA

- ❖ Spearheaded the creation of an innovative mobile experience for a network monitoring dashboard, employing the Cloudscape design system to ensure a seamless and intuitive user interface
- ❖ Conducted user interviews to craft personas that now serve as valuable guides in designing multiple infrastructure tools
- ❖ Effectively communicated the CloudFront customer experience to key stakeholders with a user journey map that unveiled existing UX gaps and identified prime design opportunities for improvement
- ❖ Devised a strategic approach for CloudWatch Internet Monitor to prioritize action items through user stories alignment with major goals
